

Floating Prayers

You will need: Thin paper, pens, scissors, a container filled with water.

Think of people or things that are precious to you.

Fold a piece of paper in half and cut out an oyster shell with the fold along the hinge so you have 2 joined halves

Inside write those people or things that are precious and you want to ask God to look after.

Fold your shell closed so the words are hidden.

Place the bottom of the prayer shape on top of the water and watch as the shell opens opening out the prayer to God. Why not try different shapes such as flowers with the petals folded in.
